2. **Processes**: what are the key steps to get things done, and are they appropriate?

3. **Structure**: is the structure of the organization helping or hurting?

4. **Resources**: do we have the right mix of people, money, and technology?

5. **Systems**: are there adequate measures, controls, and reporting tools to execute strategic intent, regulatory requirements, and financial control?

6. **Empowerment**: can people contribute meaningfully to the mission?
